NVIVO FOR ANALYSIS

The screenshot displays the NVivo Starter software interface. The title bar reads "Explore Starter Sample Project.nvp - NVivo Starter". The menu bar includes FILE, HOME, CREATE, DATA, ANALYZE, QUERY, EXPLORE, LAYOUT, and VIEW. The ribbon contains various tool groups: Workspace (Go, Refresh), Item (Open, Properties, Edit), Clipboard (Paste, Merge), Format (B, I, U, A), Paragraph, Styles (Reset Settings), Editing (Select, PDF Selection, Text, Region, Find, Replace, Delete), and Proofing (Spelling). On the left, the "Nodes" pane shows a tree structure with "Interview Responses", "Cases", "People", and "Sites". The "People" node is selected and circled in green. The main area shows a table of interview participants.

On the ATLAS experiment, ATLAS started long before that, and
build.

(00:50) i was on another experiment when i was a postdoc

(00:54) in fermilab?

(00:57) fermilab, yeah, on the D0 exp. so i've been here since
live in Seattle, so i do a lot of commuting.

(01:06) my students and postdocs are located over here. and
all located back in Seattle.

(01:13) wow. because you have teaching duties?

(01:17) i have teaching duties, i mean if you really wanna be
fan of the town of Geneva.

(01:26) it's a good town, don't get me wrong. but we have m
time, but we were living in a town in the south of France in a
for us was perfect.

(01:38) that was her kind of town.

(01:39) i understand.

(01:44) it's all very personal out there, a lot of people really l
don't get me wrong. it's just not my town.

(01:49) what's your responsibilities now?

(01:55) so, i guess it depends on what you mean by that, but
group here, of UW folks, i have various minor responsibilities
experiment, i got other responsibilities, you know leadership
im running a conference, so we are running a 200 people con
months

(02:34) so there are all sorts of things like that. but i don't ha
within ATLAS organization at the moment.

(02:42) i've done that in the past, i don't - im not gonna do th

(02:46) within ATLAS

(02:52) i didn't really know what you mean by responsibilities

(02:54) all these are aspects - as a physicist -

(02:58) ok well, i mean my day consist of a number of things
that are taking up most time right now in the work day, are or
